

STATE CIF

TITLE IX RESOURCE NETWORK

Have you ever had a question or an issue regarding Title IX and equity, but were afraid to ask? Perhaps you were not sure whom to call for information.

Now you have help. The State CIF and the section offices now have coaches, athletic directors and administrators located in your area to help answer questions, give you practical solutions to Title IX or just help you do a better job of implementing a quality program. These are CIF-trained individuals who have volunteered to assist you, possess good communication skills and have a desire to help you “solve the problem.”

Please feel free to contact the Coordinator in your area or Roger Blake at the State CIF Office. We are here to help you and our CIF member schools.
